

# WHY DO PEOPLE CHOOSE A CNH REMAN ELECTRONICS REPAIR AND RETURN PROGRAM?

Do you struggle with low supply, long shipping times and hard-to-find parts for your customers?

CNH Reman electronics can help you extend the life of customer equipment through our R&R program.

## REMAN ELECTRONICS REPAIR AND RETURN

**KEEPING YOUR CASE IH AND NEW HOLLAND EQUIPMENT RUNNING LONGER FOR LESS.**

We understand the importance of maximizing shop hours along with ensuring the smooth operation of equipment for your customers. Trust in the expertise of CNH Reman and our repair partners to provide top-tier repair services tailored to your needs. Our expert team is equipped to diagnose and repair display monitors, ensuring OEM quality is achieved. Additionally, we provide specialized repair services for arm rest controllers, skid steer instrument panels, and chassis control modules, ensuring your equipment's optimal performance and safety.

All repairs follow the same remanufacturing process with one small change. Many electronics are at the end of life, meaning they are not produced anymore, resulting in unavailable replacement parts. In this event, a part that would typically be replaced with 100% new is either repaired or utilized another core to get the component back up and running.

### WHAT MAKES A CNH ELECTRONICS REPAIR AND RETURN YOUR BEST CHOICE?

- CNH Reman partners with SRC Technologies Group who has over 30 years of experience.
- 24-month Parts Warranty
- 2-7 business day turnaround from time of receipt
- Don't see your part on the list? No problem! Submit a Request for Quote (RFQ)

### REMANUFACTURING FOR A SUSTAINABLE FUTURE

Together, we can reduce waste, conserve resources, and reshape our industry toward a greener future. Our remanufacturing processes breathe new life into equipment and extend its work life by not only repairing but also improving it beyond its original state. A CNH Reman 24-month industry-leading warranty transfers your worry to us and provides you with true peace of mind.

Use the resource on Reman Connect or the CNH Dealer portal to request a quote today.
